

TEST AUTOMATION PRACTICE – DEFECT REPORT ANALYTICS

DEFECT REPORT 1:-

Defect Identifier

TAP-01

Defect Summary

Date Picker Accepts Impossible Dates (13/32/2024)

Test ID

TC_DP_001

Test Case Name

Validate Date Picker Input

Module Name

Date Picker

Description

The application accepts invalid calendar dates such as 13/32/2024 which do not exist in the Gregorian calendar.

Reproducible Steps

1. Navigate to Date Picker page.
2. Enter date as 13/32/2024.
3. Submit the form.
4. Observe the application response.

Expected Result

The system should reject invalid dates and display an appropriate validation message.

Actual Result

The application accepts the invalid date and processes the request successfully.

Severity: High

DEFECT REPORT 2:-

Defect Identifier

TAP-02

Defect Summary

Phone Field Accepts Alphabetic Characters

Test ID

TC_PHONE_002

Test Case Name

Validate Phone Number Field

Module Name

Text Box Form

Description

The Phone field allows users to enter alphabetic characters and submit the form successfully.

Reproducible Steps

1. Open the form page.
2. Enter “abcdef” in the Phone field.
3. Complete other mandatory fields.
4. Submit the form.

Expected Result

The system should allow only numeric values in the Phone field.

Actual Result

Alphabetic characters are accepted.

DEFECT REPORT 3:-

Defect Identifier

TAP-03

Defect Summary

Phone Field Accepts Special Characters

Test ID

TC_PHONE_003

Test Case Name

Validate Phone Number Special Character Restriction

Module Name

Text Box Form

Description

The Phone field accepts special characters such as @, #, \$, %, etc.

Reproducible Steps

1. Open the form page.
2. Enter “@#\$\$%^” in the Phone field.
3. Complete other mandatory fields.
4. Submit the form.

Expected Result

Only numeric values should be accepted.

Actual Result

Special characters are accepted.

DEFECT REPORT 4:-

Defect Identifier

TAP-04

Defect Summary

Gender Field Allows Form Submission Without Selection

Test ID

TC_GENDER_004

Test Case Name

Validate Mandatory Gender Selection

Module Name

Radio Button

Description

The form can be submitted without selecting any gender option.

Reproducible Steps

1. Open the form page.
2. Fill all mandatory fields except Gender.
3. Submit the form.

Expected Result

The system should prevent submission and display a validation message.

Actual Result

The form is submitted successfully.

DEFECT REPORT 5:-

Defect Identifier

TAP-05

Defect Summary

Double-Click Copy Text Responds to Single Click

Test ID

TC_DCLICK_005

Test Case Name

Validate Double Click Functionality

Module Name

Buttons

Description

The copy text action is triggered with a single click instead of requiring a double click.

Reproducible Steps

1. Navigate to Double Click page.
2. Single click the Copy Text button.
3. Observe the behavior.

Expected Result

Copy operation should occur only after a double click.

Actual Result

Copy operation occurs with a single click.

DEFECT REPORT 6:-

Defect Identifier

TAP-06

Defect Summary

Drag & Drop Has No Visual Hover Feedback

Test ID

TC_DND_006

Test Case Name

Validate Drag and Drop User Feedback

Module Name

Drag and Drop

Description

No visual indication is displayed while dragging an element over the drop target.

Reproducible Steps

1. Navigate to Drag & Drop page.
2. Drag an item towards the drop area.
3. Observe the drop target.

Expected Result

The drop area should provide visual feedback such as highlighting.

Actual Result

No visual feedback is displayed.

DEFECT REPORT 7:-

Defect Identifier

TAP-07

Defect Summary

Scrolling Dropdown Does Not Retain Selected Value After Refresh

Test ID

TC_DD_007

Test Case Name

Validate Dropdown Persistence

Module Name

Select Menu

Description

Selected dropdown value is lost when the page is refreshed.

Reproducible Steps

1. Select a value from the dropdown.
2. Refresh the page.
3. Check the selected value.

Expected Result

Previously selected value should be retained if persistence is supported.

Actual Result

Selection resets to default value.

DEFECT REPORT 8:-

Defect Identifier

TAP-08

Defect Summary

Prompt Alert Accepts Empty Input Without Validation

Test ID

TC_ALERT_008

Test Case Name

Validate Prompt Alert Input

Module Name

Alerts

Description

The prompt alert allows submission without entering any value.

Reproducible Steps

1. Open Prompt Alert.
2. Leave the input field blank.
3. Click OK.

Expected Result

The system should display a validation message for empty input.

Actual Result

Blank input is accepted.

DEFECT REPORT 9:-

Defect Identifier

TAP-09

Defect Summary

Country Dropdown Allows Submission Without Selection

Test ID

TC_COUNTRY_009

Test Case Name

Validate Mandatory Country Selection

Module Name

Dropdown

Description

Users can submit the form without selecting a country.

Reproducible Steps

1. Open the form page.
2. Leave Country dropdown unselected.
3. Submit the form.

Expected Result

Country selection should be mandatory.

Actual Result

Form submission succeeds without country selection.

DEFECT REPORT 10:-

Defect Identifier

TAP-10

Defect Summary

File Upload Accepts Unsupported Formats (.exe, .bat)

Test ID

TC_UPLOAD_010

Test Case Name

Validate File Upload Restrictions

Module Name

File Upload

Description

The file upload component accepts executable files such as .exe and .bat.

Reproducible Steps

1. Navigate to File Upload page.
2. Upload an .exe or .bat file.
3. Submit the upload.

Expected Result

Unsupported file formats should be rejected.

Actual Result

Executable files are uploaded successfully.

DEFECT REPORT 11:-

Defect Identifier

TAP-11

Defect Summary

Static Web Table Has No Pagination or Scroll Control

Test ID

TC_TABLE_011

Test Case Name

Validate Table Navigation

Module Name

Web Tables

Description

Large datasets cannot be navigated efficiently due to the absence of pagination or scrolling.

Reproducible Steps

1. Open Web Table page.
2. Load large data records.
3. Attempt to navigate through records.

Expected Result

Pagination or scrolling should be available.

Actual Result

Navigation becomes difficult with large datasets.

DEFECT REPORT 12:-

Defect Identifier

TAP-12

Defect Summary

Mouse Hover Dropdown Is Not Keyboard Navigable

Test ID

TC_HOVER_012

Test Case Name

Validate Accessibility of Hover Menu

Module Name

Mouse Hover

Description

Users cannot access hover menu options using keyboard navigation.

Reproducible Steps

1. Open Mouse Hover page.
2. Use Tab and keyboard navigation keys.
3. Attempt to access hover menu items.

Expected Result

Hover menu should be accessible using keyboard controls.

Actual Result

Menu options are inaccessible through keyboard navigation.
